Trading Statement

Fourth quarter and Full year 2014

Zaandam, the Netherlands - Ahold today announced consolidated net sales of €8.1 billion for the fourth quarter of 2014, an increase of 7.9% compared to the fourth quarter of 2013. At constant exchange rates net sales were up 2.6%.

For the full year 2014, consolidated net sales were €32.8 billion, an increase of 0.5% compared to 2013. At constant exchange rates net sales were up 0.8%.

In the United States, we were pleased with the progress of our program to improve our customer proposition, which was deployed to 523 stores by the end of the year. Identical sales excluding gasoline increased 0.3%, compared to -2.0% last year and -0.2% in the previous quarter (adjusted for the market disruption in New England). Net sales were down 0.5% in the fourth quarter reflecting lower gas sales due to significant price deflation. Market share for the fourth quarter and for the full year was down slightly, mainly related to Giant Landover. Investments in our customer proposition continue to be largely funded by cost reductions from our Simplicity program and we expect underlying operating margin for the fourth quarter to be broadly in line with the previous quarter.

In the Netherlands, our sales performance significantly improved with net sales up 4.5% in the fourth quarter, driven by identical sales growth of 2.2% and by further extending Albert Heijn's network in the Netherlands and Belgium. Sales in the quarter reflect a strong holiday performance from Albert Heijn stores and our online businesses Albert Heijn Online and bol.com. Consequently for the fourth quarter, market share at Albert Heijn increased compared to last year, while for the full year, market share improved slightly. Partially due to increased promotional activity, we expect the underlying operating margin in the Netherlands for the fourth quarter to be slightly lower than the previous quarter.

In the Czech Republic, the integration of the SPAR stores is well underway, resulting in net sales growth of 32.6%. The underlying operating margin will be impacted by the consolidation of the SPAR stores, as mentioned in our previous outlook.

We expect our free cash flow for the year to be higher than guided in our previous outlook.

The net sales figures presented in this trading statement are preliminary and unaudited.

Use of non-GAAP financial measures

This trading statement includes non-GAAP financial measures. The descriptions of these non-GAAP financial measures are included on page 46 of Ahold's Annual Report 2013. The descriptions of new non-GAAP measures are included below.

Comparable sales, excluding gasoline net sales

Identical sales plus net sales from replacement stores in local currency, excluding gasoline net sales. Because gasoline prices have experienced greater volatility than food prices, Ahold's management believes that by excluding gasoline net sales, this measure provides a better insight into the growth of its comparable store sales.

Net consumer online sales

Total online sales to customers, excluding sales taxes and value-added taxes, but including sales of third parties via bol.com's Plaza. Ahold management believes that this measure provides more insight into the growth of our online businesses.
